Data Spec Sheet:

Product:

Mesh Deck 1324 x1110mm Galvanise 1000KG

Type: Wire Mesh Decking

Dimensions: 1324mm x 1110mm

Material: Galvanise

Weight Capacity: 1000KG

These decks are made of high-quality steel wire mesh that is electro-galvanised after welding to ensure a long-lasting and corrosion-resistant finish. They fit over the beams of your pallet racking system with no tools or fixings required, and they have a waterfall design that prevents them from spreading or falling off.
